Hippus HandShoe Mouse

Hypertec Accessories

The user friendly HandShoe Mouse is an ergonomic mouse available in 3 standard sizes: small, medium and large. The HandShoe Mouse is **plug and play;** no special drivers for Mac or PC are needed. Controls consist of 2 buttons at an ergonomic position and a scroll wheel fitted with a switch mechanism.

The large size HandShoe Mouse has a third switch button. (This switch button is not programmable; it has the same function as the click function underneath the scroll wheel.)

Which Size?
Measure on the inside of the stretched out hand, distance from wrist up to the top of the ring finger. This length provides an indication of the required size.

- Length up to around 170mm: Small
- Length from around 170 to 190mm: Medium
- Length of 190mm and above: Large

Research
the objective of the development was to realise a contour which allows for a relaxed hand position. The resulting shape of the HandshoeMouse fully supports the hand. Only a minor contraction of the muscles of the fingers is required to operate the switches and scroll wheel. Arms and hands remain in a relaxed position. This is contrary to a conventional computer mouse which requires continuous lifting of the fingers and thus muscle action.

Specs

- USB Connected
- Rechargeable Wireless and wired options available
- Supported by Windows 95, 98, 2000, NT, XP, Vista, Mac OS 9, Mac OS X and Unix
- 1000 Dpi optical sensor

Part Codes:

HIP-HSMLHY	Large	-	Right-handed	-	Wired
HIP-HSMLWHY	Large	-	Right-handed	-	Wireless
HIP-HSMMHY	Medium	-	Right-handed	-	Wired
HIP-HSMMWHY	Medium	-	Right-handed	-	Wireless
HIP-HSMSHY	Small	-	Right-handed	-	Wired
HIP-HSMSWY	Small	-	Right-handed	-	Wireless

Enhancements to help you achieve maximum performance & comfort from all your IT systems.
